

Meeting Agenda - Week 1

Date:

23-02-2017

Chair:

Anne Keller

Participants:

Joakim Mattsson, Sanjin Slavnic, Kevin Brunström, Anne Keller

1. Objectives (5 min). Resolve any issues preventing the team to continue.

First of all we decided for an idea as we did not have one before our weekly meeting with our supervisor. The idea is an application for Android that will organize business and private expenses. At the moment we are discussing and developing our idea by making research from business contacts and for the private expenses we take our own preferences in mind.

2. Reports (15 min) from previous meeting

We do not have a previous meeting, this is the first actual meeting of week 1.

Throughout this week we have been discussing ideas back and forth. So this week, we will only have one planned meeting with agenda.

3. Discussion items (35 min)

Our only issue at the moment is to develop and decide on a model for our program and for the different functions we do want to include.

4. Outcomes and assignments (5 min)

Until next meeting following tasks needs to be taken care of:

- Everyone needs to install AndroidStudios
- Anne will do research hence to how business expenses programs work
- Research about what libraries will be necessary for our project.
- Everyone will try to brainstorm ideas until next meeting.

5. Wrap up

Next meeting will be on monday.
