

# Meeting Agenda - Week 6

**Date:**

2017-05-10

**Chair:**

Anne Keller

**Participants:**

Sanjin Slavnic, Kevin Brunström, Joakim Mattsson, Anne Keller

**1. Objectives (5 min). Resolve any issues preventing the team to continue.**

The wizard is almost done, there is a few issues left to be sorted.

Another important task before our Thursday meeting with Adam will be to create a Sequence Map of our most important Use Case.

**2. Reports (15 min) from previous meeting**

Last week we said that we should finalize the wizard but we didn't manage as we also had to re-structure the RAD and start on the SDD which took us quite an amount of time.

**3. Discussion items (35 min)**

The most important tasks is as per mentioned in the Objectives the Wizard, Activities in the bottom bar and our Sequence map.

We will keep working as a team to solve the above.

**4. Outcomes and assignments (5 min)**

Sanjin and Joakim will take responsibility of the Sequence map.

Anne and Kevin will continue coding and get the activities they are working on up and running properly.

**5. Wrap up**

Next meeting will be after our meeting with Adam tomorrow, 11/5.
