Meeting Agenda - Week 7

Date:

2017-05-17

Chair:

Anne Keller

Participants:

Sanjin Slavnic, Joakim Mattsson, Kevin Brunström, Anne Keller

1. Objectives (5 min). Resolve any issues preventing the team to continue.

This week we need to do a lot of work to get some bigger parts of the program finished. Mainly the unfinished activities. Anne and Kevin need to finalize their activities. We all need to co-operate and create two sequence maps for our main use cases.

2. Reports (15 min) from previous meeting

The Wizard is now finalized. Dependencies have been taken care of and STAN gives a positive picture of our class and package dependencies.

3. Discussion items (35 min)

On Friday this week, 18/5, all classes and functionality needs to be finished. We give ourself the weekend to optimize what we have done until friday. We need to go through our model and try fetching data easier.

4. Outcomes and assignments (5 min)

Sanjin & Joakim:

- Model
    - Go through the model and see what we can optimize.
- Better algorithms for ReceiptScanner (Optional).

Kevin:

- Archive Activity
    - Sort function
        - Namn
        - Datum

Anne:

- Company Activity
    - Add
    - Edit
    - Delete

All:
- Sequence Map
- Class diagram
- STAN
    - Package/dependency analysis

5. Wrap up

Next meeting will be on Friday to see where we are in the process. Next week will be for fixing and finalizing small amendments, class, method and variables names.
